### CAREER OBJECTIVE

*An enthusiastic and detail-oriented Junior Fronted Developer with proficient knowledge in HTML and CSS, as well as programming languages such as JavaScript, Python, and SQL. Seeking to utilize my technical skills and expertise to provide value to the employer and contribute to successful projects both today and in the future. Aiming to take on new challenges and utilize my coding and debugging skills for developing new features and enhance the overall user experience.*

### WORK EXPERIENCE

#### *University College London Hospitals NHS Foundation Trust – Vaccination Coordinator*

September 2023 - January 2024 / London UK

- Supporting the smooth running of the Flu Vaccination programme by undertaking a wide range of general administrative duties including but not limited to, creating and maintaining up to date spreadsheets, data input, routine typing and mail merge.
- Liaising and working closely with the clinical and non-clinical team.
- Assisting managers and clinicians with service development/redesign and project work.
- Planning and managing a range of complex duties.

#### *University College London Hospitals NHS Foundation Trust – Environmental Monitoring Officer London, United Kingdom.*

August 2022 - May 2023 / London UK

- Responsible for the Head of Facilities, providing an efficient and effective auditing role in support of the services contracted or provided as part of the PFI and the interim estate.
- Responsible for implementing an effective monitoring regime to support the Matrons and Environment leads in ensuring that Environment standards are maximised and maintained within the scope of the contract.
- Responsible for supporting a robust and effective auditing schedule that measures the performance of the Service Provider against the Interim and PFI Service Level Agreements.

#### *University College London Hospitals NHS Foundation Trust – Recruitment Assistant*

December 2022 - May 2023 / London, UK

- Responsible for the Head of Facilities, providing an efficient and effective auditing role in support of the services contracted or provided as part of the PFI and the interim estate.

**Project:** Created a project called 'Choose Colors'. It allowed me to create dynamically updating content, use animations, pop-up menus, clickable buttons, control multimedia, etc.

#### SQL (MySQL)

**Project:** Created SQL projects 'Swimming Pool' and 'A breakdown company' to solve specific data-related problems, tasks, such as data manipulation, aggregation, querying and database design.

#### Python

**Project:** Built a web application using Flask tools, libraries and technologies.

- Responsible for implementing an effective monitoring regime to support the Matrons and Environment leads in ensuring that Environment standards are maximized and maintained within the scope of the contract.
- Responsible for supporting a robust and effective auditing schedule that measures the performance of the Service Provider against the Interim and PFI Service Level Agreements.

### ***COVID-19 Vaccination Programme – Administrator London, United Kingdom.***

February 2021 - August 2022 / London, UK

- Accessing and maintaining accurate patient records, adhering to confidentiality as per the site's policy.
- Providing admin support on the vaccination activity by supporting the Vaccination Team with vaccination delivery and records. Ensuring infection and waste control at the vaccination station.
- Working cooperatively with all other members of the administration team to ensure the department runs smoothly:
- Entering all patients' records on the health system accurately.
